

FASHCAM

.....a Reverse Image Search Engine

About FASHCAM

- ❑ **FashCam** is an image search engine that uses computer vision to detect optical similar products for recommendation among an online shops inventory.
- ❑ Customers can easily upload a picture of the desired item or take a live picture, select the piece of object with the help of crop feature so this engine can find exactly the same or similar fashion goods.

Benefits for e-commerce

- ❑ **FashCam** visual search improves product discovery and the buying experience, leading to higher conversions and sales for eCommerce brands.
- ❑ Customers can search for products based on images, leading to faster and more accurate purchase decisions.
- ❑ The unique and simple search experience offered by FashCam drives product sales and increases revenue.
